

## ADJUSTABLE BASE FRAME FOR SOCCER GOALS

SKU: 30412

- Projection 1.50-2.00 m
- For soccer goals
- Color: natural aluminum
- Can be folded up

### PRODUCT DESCRIPTION

#### ADJUSTABLE BASE FRAME FOR SOCCER GOALS

The base frame is suitable for our soccer goal of the size 7.32 x 2.44 m. The projection of the base frame is **adjustable between 1.50 and 2.00 m**. The frame is made of a 50 x 50 mm aluminum square profile. Due to joints embedded in the profile, the base frame **can be folded up**. At the same time, it also has a very high stability, because the corners are welded.

**Net attachment:** The net of the goal is attached to the base frame via welded eyelets and a rod system. However, the rod system is not included in the delivery.

**Certification:** Adjustable base frame of the highest quality! To meet the valid safety requirements, we manufacture the base frame according to DIN 748. The base frame is also **TÜV certified** (TÜV - German Association for Technical Inspection).
