
STEEL STREETBALL SYSTEM

SKU: 38900-5

- 2.25 m projection
- With target board, hoop and net

PRODUCT DESCRIPTION

ROBUST STEEL STREETBALL SYSTEM

The **steel streetball system** (hot-dip galvanized) is a single-pole system made of square profiles with dimensions of 150 x 150 mm. The **projection is 2.25 m**.

Weatherproof basketball system

The steel streetball system is equipped with a **target board made of mesh**, which has a surrounding frame in the color black. The dimensions of the target board are 1,20 x 0,90 m. In addition, the equipment comes with a **hot-dip galvanized basketball hoop** and a chain net that is also hot-dip galvanized.

Note: According to DIN EN 1270, a protective pad is no longer mandatory for a projection of 2.25 m. For the protection of the athletes, it is nevertheless recommended to equip the facility with an appropriate protective pad.

Streetball facilities and sports equipment from the manufacturer

In addition to high-quality streetball systems made of steel or aluminum, we also have

single-mast basketball systems, double-mast basketball systems and basketball systems for wall mounting in our program. Get an overview of the different designs of outdoor basketball equipment from artec® Sportgeräte!
