- 5 x 2 m
- Color: alu nature
- Safety net hooks
- Projection 1.00 m

PRODUCT DESCRIPTION

YOUTH SOCCER GOAL 5 X 2 M WITH NET HOOKS

The **youth soccer goal 5 x 2 m** and is made of aluminum. In the easytec version it includes **safety net hooks**. The youth soccer goal has a very high stability and durability for various reasons: The 100 x 120 mm oval profile used for the posts and the bar has a high profile thickness, making it extremely robust. In addition, the youth soccer goal 5 x 2 m is fully welded and has **weld seams of the highest quality**. The welded corner connectors provide additional stability.

Freestanding youth soccer goal

The ground frame consists of a rectangular profile made of aluminum (80 x 60 mm). The corners of the profile are rounded to minimize the risk of injury. The youth goal is equipped with net hoops made of round tube (60 x 3.5 mm). This results in an upper projection of 0.80 m and a lower **projection of 1.00 m**. It is essential to secure the free-standing youth soccer goal from tipping over. Therefore, the goal comes with a **device for ground anchoring** (e.g. ground pegs/spirals).

Net suspension with net hooks

The **aluminum youth soccer goal** is equipped with the **easytec net suspension**. The safety net hooks are made of plastic and have a very flat design. This means that they protrude only slightly from the goal frame profile and do not pose any risk of injury. In addition, the hooks can be quickly and easily mounted in the aluminum profile. For fastening the goal net, the youth soccer goal is also equipped with welded eyelets. Not included in the scope of delivery of the goal are the **rod system for securing the net** to the ground frame and the soccer goal net.

The youth soccer goal -easytec- is of the highest quality and is manufactured in Germany. The goal is also manufactured according to the valid DIN 748 and is **certified by TÜV** (TÜV - German Association for Technical Inspection). This ensures that our customers get a safe youth soccer goal.
