- Different total lengths available

PRODUCT DESCRIPTION

STRAIGHT ALUMINUM BARRIER SYSTEM

The aluminum **barrier system** is suitable for installing additional barrier advertising elements (available as accessories). The system is very robust and quick to install. With its high **weather resistance** the system convinces on many sports facilities worldwide! The barrier has the following features:

- Made of anodized aluminum
- **Internal T-connectors**
- 4 rubber seals per post for expansion compensation
- 1.50 m post length, 2.50 m spar length
- Round post and rail profile with 60 mm diameter and 3 mm wall thickness
- Worked without burrs, protected against creeping water
- Start and end points are formed by 90° elbows

Important notes: Price is per metre. Due to the element length of 2.50 m, the minimum

length of the barrier is 2.50 m. **Please use the request function for an individual offer of the aluminium barrier system in your preferred length!**

Example length:

- **50 m:** 20 barrier rails (each 2.50 m long), 21 posts, incl. T-connectors
- **100 m:** 40 barrier rails (each 2.50 m long), 41 posts, incl. T-connectors
- **200 m:** 80 barrier rails (each 2.50 m long), 81 posts, incl. T-connectors

Please also inform yourself further about our barriers with advertising or our ball stop systems!
