SKU: 30175

- Various sizes
- Curved roof
- Made of aluminum
- Back and upper side walls made of macroton
- With carrying handles and base plate

PRODUCT DESCRIPTION

FULLY WELDED ALUMINUM COACHES CABIN

The **HAMBURG aluminum coaches cabin** is made of thick-walled aluminum profiles and reinforced several times. This creates an exceptionally **stable and durable premium class team cabin**. The complete back wall as well as the upper side walls are also made of macroton glazing for optimal visibility. The roof is curved backwards so that rain can drain off. In addition, the cabin has carrying handles welded on both sides for **comfortable transport** and welded lugs (5 pieces) for floor anchoring. For a reliable fastening, we recommend our matching [ground anchor sockets \(set of 5\)](#).

Team cabin with different lengths

The aluminum coaches cabin is available as standard in **3 m, 4 m and 5 m** length. Further lengths are available **on request**. All versions have a height of 2.25 m and a depth of 1 m.

The cabin is delivered in one piece, so that **no major assembly effort** is required. On the part of artec® we recommend the additional anchoring to the ground.

The extremely robustly manufactured coaches benches from artec® are guaranteed not to leave you sitting in the rain! Protected from wind and weather, you can follow the game in the team cabin. Our cabins are manufactured in Germany **in the highest quality** and are therefore in use on many sports grounds. Please also inform yourself about technical details of our [top quality team cabins](#)!

Sports ground equipment directly from the manufacturer

At artec® you get everything for the soccer ground from one source: In addition to the aluminum team cabin, you get goals in different designs (e.g. [soccer goals](#) in the size 7.32 x 2.44 m, [training goals](#) or [recreational goals](#)), [goal nets](#) and other [soccer accessories](#).
