

ALUMINUM COMBINATION VOLLEYBALL FACILITY

SKU: 33533

- Made of aluminum
- Steplessly adjustable
- DVV 1 test mark
- TÜV tested

PRODUCT DESCRIPTION

ALUMINUM COMBINATION VOLLEYBALL FACILITY FOR COMPETITIONS

The **volleyball facility made of aluminum** is suitable for competition, is TÜV-tested and has a **DVV 1 test mark**. The facility is manufactured as a combination construction and can therefore be used not only for volleyball but also for badminton and tennis.

High quality volleyball facility from the manufacturer

The volleyball competition facility is made of high quality aluminum profiles (100 x 120 mm), which have a wall thickness increasing from 4 to 6 mm. The **tensioning and adjusting mechanism** is located inside the posts. With the help of a crank the net can be **adjusted steplessly** over it.

For the combined facility we also have the matching volleyball net in our program! Please also inform yourself about the technical details of our volleyball posts.
