- Price per metre
- External T-connector
- Round profile
- Length per element: 2.50 m
- Different total lengths available

PRODUCT DESCRIPTION

ALUMINUM STRAIGHT BARRIER

The **straight aluminum barrier** is suitable for installing additional perimeter advertising elements (available as accessories). The system is very robust as well as quick to install. With its high **weather resistance** the system convinces on many sports facilities worldwide! The barrier has the following features:

- Made of anodized aluminum
- **External T-connectors**
- 1.50 m post length, 2.50 m spar length
- Round post and rail profile with 60 mm diameter and 3 mm wall thickness
- Worked without burrs, protected against creeping water
- Start and end points are formed by 90° elbows

Important notes: Price is per metre. Due to the element length of 2.50 m, the minimum length of the barrier is 2.50 m. **Please use the request function for an individual offer of the aluminum straight barrier in your preferred length!**
