
ALUMINUM TRAINING GOAL PROTECTOR - LONGITUDINALLY MOVABLE

SKU: 30018-1

- Longitudinally movable
- With anti-tilt device
- Rectangular base frame
- Milled net suspension
- Projection 1.50 m

PRODUCT DESCRIPTION

ALUMINUM TRAINING GOAL ANTI-TILT

The **aluminum training goal** with anti-tilt device screwed to the ground frame is **fully welded** and has a size of 7.32 x 2.44 m. It has an upper projection of 0.80 m and a lower projection of 1.50 m. The net is suspended by a milled-in net suspension. It has an upper extension of 0.80 m and a lower extension of 1.50 m.

The goal has an **extremely stable overall construction**. High quality welds and additional welded corner connectors ensure high stability. The goal frame is made of an oval profile of aluminum (100 x 120 x 2.5 mm), while the ground frame is made of a rectangular profile (80 x 60 x 3 mm). The edges of the profile are rounded for the **safety of the athletes**.

Longitudinally movable soccer training goal

The anti-tilt system consists of an aluminum profile and a **filling made of sturdy steel**. For flexible use of the soccer training goal, it also has three special wheels. This allows the goal to be moved lengthwise on the sports ground. The **foamed air wheels** also have optimal running characteristics.

The high-quality **premium net suspension** is milled into the profile and deburred twice. This ensures a net-friendly attachment and an **exact hold of the goal net** in the aluminum profile of the goal frame. With the help of welded eyelets and a rod system (not included), the goal net is also mounted to the ground frame.

Safety aluminum training goal anti-tilt

The longitudinally movable aluminum training goal anti-tilt comes with a **TÜV certificate** (TÜV - German Association for Technical Inspection). Manufactured according to the specifications of **DIN standard 748**, it also complies with the rules of FIFA and DFB (German Football Association).

In addition to the aluminum training goal, the pole system for attaching the net to the ground frame and the goal net are required.

Excellent quality directly from the manufacturer

At the manufacturer artec® Sportgeräte you get everything the soccer heart desires. We attach great importance to the durability and quality of our soccer goals and sports equipment. artec® offers you a variety of different goals: Whether aluminum training goals, competition goals, extremely robust recreational goals, youth goals or even mini goals made of aluminum.
