SKU: 30074-GB

- 5 x 2 m
- Milled net suspension
- Fully welded
- Color: natural aluminum
- Optionally with ARENA net protection

PRODUCT DESCRIPTION

ALUMINUM YOUTH GOAL WITH ANTI-TILT DEVICE

High quality aluminum youth goal with anti-tilt device directly from the manufacturer! The youth goal with **weight in the ground frame** is made of aluminum and has a size of 5 x 2 m. The goal frame is made of oval profiles (100 x 120 mm) and the ground frame is made of a square profile (80 x 80 mm). The **youth goal is fully welded** and also has welded corner connectors. In combination with the strong welds, you get a youth goal of **extremely high stability**. The anti-tilt goal also comes with net hoops, resulting in the following projections: 0.80 m at the top and 1.50 m at the bottom.

The youth goal with weight in the ground frame meets the requirements of the DFB (German Football Association) as well as FIFA. It is manufactured according to the valid DIN 748 and is **TÜV tested** (TÜV - German Association for Technical Inspection).

Note: Goal net not included.

High-quality net fastening in the profile

The **milled-in net attachment** integrated in this youth goal is extremely safe for the athletes. The goal net is mounted directly in the goal frame profile of the goal, so that no corners or edges protrude from the aluminum profile. The net suspension is also deburred on both sides. This ensures a **particularly net-friendly and precise attachment**. The goal net is mounted to the ground frame using a tensioning rope or alternatively using a rod system (not included). For this purpose, eyelets are welded to the ground frame.

Aluminum youth goal with anti-tilt device - weight in the ground frame

The youth goal is **secured against tipping** by a counterweight integrated in the ground frame. To make the goal mobile despite the additional weight, it is also equipped with **two special wheels** (foamed air wheels with 250 mm diameter). These have optimal running characteristics. The youth goal is mobile according to its width.

Our youth goal with anti-tilt device and milled net suspension can additionally be equipped with the **ARENA net protection**. The ARENA net protection is used to close the milled net hole precisely and to protect the goal net against theft. It is fixed in place with a screw lock.

Anti-tilt goals directly from the manufacturer

Buy the aluminum youth goal with anti-tilt device directly from the manufacturer! With us, you are guaranteed to find the perfect soccer goal for your purpose: Whether youth goals (optionally with anti-tilt system or integrated counterweight in the ground frame), soccer goals in the size 7.32 x 2.44 m, training goals, recreational goals or even mini goals - there is something for everyone! In our products, as a manufacturer of sports equipment, we attach great importance to long durability and excellent quality. Just choose the suitable goal in our online store and let us convince you! You are also welcome to find out more about the technical details of our goals for youth soccer.
