PRODUCT DESCRIPTION

PROFESSIONAL BARRIER ADVERTISING WITH ALUMINUM COMPOSITE PANELS, INCL. BRACKETS

The **barrier advertising** with aluminum composite panels (incl. brackets) has a dimensions of 2.00 x 0.75 m for the barrier elements. The system is made of robust aluminum and is produced in Germany. The advertising elements made of aluminum composite panels are also extremely stable and have a long durability. Due to the excellent quality, the barrier system is used in many stadiums and sports facilities worldwide.

Important notes: The price is per metre. Due to the element size of 2.00 m, the minimum length of the barrier system is 2.00 m. **Please use the request function for an individual offer on the barrier system with aluminum composite elements in your preferred length!**

The barrier advertising is combined with our high quality barrier system. As a manufacturer, we are also happy to inform you about technical details of the sports field
