

BASKETBALL SYSTEM - TWO MAST

SKU: 37650-4

- 0.30 m projection
- Made of aluminum
- With backboard, hoop and net
- TÜV tested

PRODUCT DESCRIPTION

BASKETBALL SYSTEM - TWO MAST DESIGN

The **basketball system - two mast** is made of aluminum and has a projection of 0,30 m. It is made of oval profiles with dimensions 100 x 120 mm. Extraordinary stability and durability is achieved due to the fact that the facility is completely **welded in one piece**. The plant in two-mast design is also **TÜV-tested**, which ensures the safety of athletes.

Important note: According to DIN EN 1270, basketball stands with a projection of less than 2.25 m must be equipped with a [protective pad](#).

Basketball system directly from the manufacturer

The system is equipped with two masts with a backboard made of coplast, a basketball hoop and the basket net made of nylon. The weatherproof backboard has a size of 1,80 x 1,05 m. The **galvanized steel basketball hoop** is also powder coated in orange color.

In addition to fully equipped two-mast systems, the basketball stands, backboards,

basketball hoops as well as hoop nets are also available individually. As a sports equipment manufacturer, we are also happy to give you an overview of our various outdoor basketball systems!
