PRODUCT DESCRIPTION

BASKETBALL SYSTEM WITH BACKBOARD AND HOOP FOR WALL MOUNTING

The **basketball system** with backboard and hoop is mounted on the wall. It is made of aluminum and has a **projection of 2.25 m**. The basketball frame is completely welded in one piece, which makes it extremely stable and durable. The sturdy backboard is made of weather-resistant coplast and measures 1.20 x 0.90m. The basketball system is also equipped with a **basketball hoop made of galvanized steel**. This is powder coated in the color orange. The robust steel chain net is also galvanized.

Basketball systems and sports equipment from the manufacturer

In addition to fully equipped systems for wall mounting, we also have single-mast basketball systems and two-mast basketball systems in our range. Get also an overview of our different designs of outdoor facilities for basketball!
