SKU: 30821

- 1.20 x 0.80 m
- Lightweight aluminum construction
- Milled net suspension InterNet®
- Oval profile

PRODUCT DESCRIPTION

LIGHTWEIGHT CHILDREN'S FOOTBALL GOAL SMARTLINE

Despite its sturdy aluminum construction, the **Children's football goal SmartLine** is an ultimate **lightweight**. Measuring **1.20 x 0.80 m**, the mini goal weighs **less than 10 kg**. According to DFB specifications, this makes it perfect for use in G-, F- and E-youth teams as well as for the new forms of play that will be mandatory from the 2024/25 season in Germany. Thanks to its low weight, the **artec® Children's football goal SmartLine** also offers the advantage that it **does not need to be secured against tipping over** and is **easy to transport**, meaning that different match and training situations can be set on the field in no time at all.

We have summarized more about the various [possible uses of mini goals](#) on our blog.

Flexible premium-class mini goal

Just like our other mini goals, we also manufacture the SmartLine goals from **high-quality aluminum profiles**. It goes without saying that the mini goal for children's football is

completely **welded in one piece**. This guarantees the **exceptional artec® quality** - a product **100% "Made in Germany"**. The used goal frame profile is a 60 x 70 mm oval profile, while the ground frame consists of a 34 mm square profile. The projection of the mini goal is 0.50 m.

Furthermore, the mini goal has an open rear frame. The net is attached using our **milled-in InterNet® premium net suspension system**. This is deburred on both sides and has **no sharp edges** to ensure particularly gentle and safe net installation. The net is attached to the ground frame using safety net hooks.

Note: goal net not included in the scope of delivery

Mini goals and sports equipment from the manufacturer

In addition to fully welded mini goals, we also offer other types of goals: whether [large field goals](#), [training goals](#), [youth soccer goals](#) or [recreational goals](#) - there is a suitable goal for everyone! You are very welcome to find out more about our various [goals](#).
