SKU: 30175-E

- Various sizes
- Curved roof
- Fully welded
- Back wall and upper side walls made of macrolon
- With carrying handles

PRODUCT DESCRIPTION

COACHES BENCH HAMBURG MADE OF ALUMINUM AND MACROLON

The **coaches bench HAMBURG** is fully welded and is made of high quality aluminum profiles. This creates an exceptionally **stable and durable team cabin**. The complete back wall as well as the upper side walls are also made of macrolon glazing for optimal visibility. The roof is curved backwards, which allows rain to drain away. In addition, the cabin has carrying handles welded on both sides for **comfortable transport** and welded lugs (4 pieces) for floor anchoring. For a reliable fastening, we recommend our matching [ground anchor sockets \(set of 4\)](#).

Top quality coaches cabin

The sturdy coaches bench is available as standard in **3 m, 4 m and 5 m** length. Further lengths are available **on request**. All versions have a height of 2.25 m and a depth of 1 m. The cabin is delivered in one piece, so that **no major assembly effort** is required. On the

part of artec® we recommend the additional anchoring to the ground.

The artec® coaches benches are guaranteed not to leave you sitting in the rain! Protected from wind and weather, you can follow the action on the field in the cabin. Our cabins are manufactured in Germany **in the highest quality** and are therefore in use on many sports grounds. Please inform yourself about technical details of our [robust team cabins!](#)

Sports equipment directly from the manufacturer

At artec® you get everything for the soccer field from one source: Besides the coaches bench HAMBURG you get goals in different designs (e.g. [large field goals in size 7,32 x 2,44 m](#), [training goals](#) or [recreational goals](#)), [goal nets](#) and further [soccer accessories](#).
