PRODUCT DESCRIPTION

COACHES CABIN FRANKFURT MADE OF ALUMINUM

The **FRANKFURT coaches cabin** is made of thick-walled aluminum profiles and reinforced several times. This results in an extraordinarily **stable and durable team cabin**. The upper part of the side walls is made of macrolon glazing to achieve optimal visibility. The roof is inclined to the rear so that rain can drain off optimally. In addition, the cabin has carrying handles welded on both sides for **comfortable transport** and welded lugs (4 pieces) for floor anchoring. For a reliable fastening, we recommend our matching [ground anchor sockets \(set of 4\)](#).

Coaches cabin in different sizes

The team cabin is available as standard in **3 m, 4 m and 5 m** length. Further lengths are available **on request**. All versions have a height of 2.25 m and a depth of 1 m. The cabin is delivered completely in one piece, so **no major assembly is required**. We recommend
