SKU: 30030

- Color: White
- 7.32 x 2.44 m
- With net hoops
- Milled net suspension
- Optionally with ARENA net protection and protective sleeve

PRODUCT DESCRIPTION

COMPETITION GOAL WITH NET HOOPS "MADE IN GERMANY"

This competition goal with the size of 7.32 x 2.44 m meets the requirements for official FIFA and DFB tournament matches. To achieve high stability, the goal is firmly **anchored in ground sockets** (not included). The goal comes with net hoops, so no tie rods are needed. The upper projection is 0.80 m, the lower projection can be 1.50 or 2.00 m, depending on the combined ground frame.

As competition goal with net hoops, this product has exceptional stability and durability. This is achieved in particular by the robust construction. Among other things, the miters are firmly welded and also the welded corner connectors, which serve as adapters for the posts, contribute to the stability. The soccer goal is made of strong aluminum profiles with the dimension 100 x 120 mm. The wall thickness of these profiles is 2.5 mm. Powder coating gives the aluminum soccer goal a white color.

High quality soccer goal with milled net suspension

Our premium net suspension consists of a double deburred milling, which keeps the goal net both **net-friendly** and securely in place. Net installation is quick and easy. Since the net is attached in the post profile, this option is also very safe.

The **competition goal with net hoops** is manufactured according to the valid DIN 748 and meet the requirements of FIFA and DFB (German Football Association). The fact that the goals have the valid safety standards is also proven by a TÜV certificate (TÜV – German Association for Technical Inspection).

Note: Ground frame, ground sockets and goal net must be purchased separately.

Accessories for the artec competition goal

The soccer goal with net hoops can optionally be equipped with our **ARENA net protection** and **protective sleeves for the posts**. The ARENA net protection is used to close the net groove precisely and secures the goal net against theft. It is fixed in place with a screw fastener. The welded post sleeve on the goal posts guarantees an exact installation height of the stationary goal and at the same time prevents soiling of the ground socket.

Buy soccer goals and more from professionals

Buy competition goals directly from the manufacturer! At the sports equipment manufacturer artec® you get everything your soccer heart desires.
