PRODUCT DESCRIPTION

YOUTH GOAL IN SIZE 5 X 2 M WITH NET HOOKS

Completely welded youth goal for the sports field! The youth goal -easytec- has a size of 5 x 2 m and is made of aluminum. In the easytec version, the goal net is fixed with the help of net hooks. The goal has a very high **stability and durability** for various reasons: The oval profile with dimensions of 100 x 120 mm used for the posts and the goal bar is extremely robust. In addition, the youth goal is fully welded and has welds of the highest quality. The welded corner connectors provide additional stability to the construction.

Completely welded youth goal with TÜV certificate

The ground frame consists of a rectangular aluminum profile (80 x 60 x 3 mm). The edges of the profile are rounded to minimize the risk of injury. The youth goal is equipped **with net hoops** made of round tube (60 x 3.5 mm). This results in the following projections: 0.80 m at the top and 1.50 m at the bottom. The completely welded youth goal -easytec- is

of the **highest quality** and is manufactured in Germany according to DIN 748. It is also **certified by TÜV** (TÜV - German Association for Technical Inspection).

Net hooks for net suspension

The youth soccer goal 5 x 2 m is equipped with the easytec net suspension system. The **safety net hooks**, which are made of plastic, have a very flat design. As a result, they protrude only slightly from the goal frame profile. In addition, the hooks can be **mounted quickly and easily**. To attach the goal net, the completely welded youth goal is also equipped with welded eyelets. Not included in the scope of delivery of the goal are the tension rope / rod system for securing the net to the ground frame and the soccer goal net.

Youth soccer goal with anti-tilt device

In order to prevent the youth goal -easytec- from tipping over, an anti-tilt system is screwed to the ground frame. This consists of an aluminum profile, which contains a steel core filling. Furthermore, the goal has special wheels so that it can be moved around the sports facility. Due to the foamed air wheels with optimal running characteristics, the goal can be moved lengthwise.

Youth goals in various designs directly from the manufacturer

Buy completely welded youth goals directly from the manufacturer! With us, you are guaranteed to find the optimal goal for your purpose: Whether youth goals that can be used flexibly on the field (optionally with anti-tilt device), soccer goals in the size 7.32 x 2.44 m, training goals, recreational goals or even mini goals - there is something for everyone!
