SKU: 30535-1-PLA

- Biodegradable
- PLA 4 mm
- Knotless
- Projection: 100/100 cm
- Colour: white

PRODUCT DESCRIPTION

ECO YOUTH GOAL NET 5 X 2 M, PROJECTION: 100/100 CM

The **eco youth goal net** 5 x 2 m is made of PLA (polylactic acid). PLA is made from **renewable and natural raw materials** and, as a synthetic polymer, belongs to the group of polyesters. The youth net is biodegradable in industrial composting plants. Due to the alternative disposal route, the eco-net contributes to **environmental protection** and thus becomes a real alternative to conventional goal nets.

Knotless eco-net for youth goals

The **white eco youth goal net** 5 x 2 m has a material thickness of **4 mm**, is very durable and therefore ideal for everyday soccer. It is suitable for youth goals 5 x 2 m with a projection of 100/100 cm. Of course, the **environmentally friendly nets** are available for different projections!

In addition to eco-goal nets in white, we also have **two-colour nets** in our range [for youth goals](#). To strengthen club identification, the goal nets can also be purchased in club

colours or with a club logo.
