PRODUCT DESCRIPTION

FIXED YOUTH GOAL IN WHITE

Fixed youth goal directly from the manufacturer! This **TÜV-approved goal** with net hoops has a size of 5 x 2 m and is **anchored in ground sockets** (not included). The posts of the goal are extended so that they can be embedded in the ground sockets. The use of net hoops results in an upper projection of the youth goal of 0.80 m. The lower projection can be adjusted depending on the combination. The lower projection can be 1.00 m and 1.50 m depending on the combined ground frame (not included).

The goal frame of the youth goal anchored in ground sockets is **made of oval profiles** measuring 100 x 120 x 2.5 mm. The net hoops are also made of round tube profiles (30 x 3 mm). The construction of the youth goal is **very stable**. This is achieved in particular by the use of high-quality materials as well as by the use of strong welding seams.

Note: Goal net not included.

Premium goal net suspension

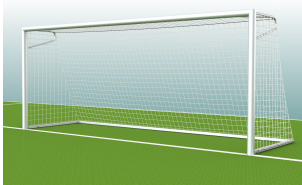

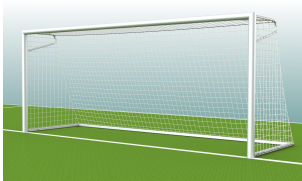

The Premium version of the stationary youth goal has a milled and **double deburred net suspension**. The goal net can thus be firmly and securely fastened within the goal post and bar profile. Due to the fact that no corners and edges protrude from the aluminum profile, this is an **extremely safe variant** of goal net suspension.

The stationary youth goal can optionally be equipped with our **ARENA net protection**. The ARENA net protection is used to close the net groove precisely and to protect the goal net against theft. It is fixed in place with a screw lock.
