

FULLY WELDED TRAINING SOCCER GOAL -EASYTEC-

SKU: 30011-E

- 7.32 x 2.44 m
- Projection 1.50 m
- Safety net hooks
- Color: natural aluminum

PRODUCT DESCRIPTION

DURABLE AND FULLY WELDED TRAINING GOAL

The fully welded training goal -easytec- includes flat designed **safety net hooks**, which protrude only slightly from the aluminum profile of the goal frame. With the plastic hooks the goal net can be fixed quickly and easily. The net is also mounted on the ground frame of the training goals using a rod system (not included). There are already welded eyelets on the training goal for this purpose.

The fully welded **training goal in the size 7.32 x 2.44 m** comes in the **color natural aluminum**. It has net hoops, so that the upper projection is 0.80 m and the lower projection is 1.50 m. To ensure high stability, the training goal must be secured against tipping. Therefore, the goal has a device for anchoring to the ground.

Due to the use of high-quality aluminum profiles and welding in one piece, this training goal has **extraordinary stability** and long durability. An oval profile (100 x 120 mm) is used for the goal post as well as the goal bar, the ground frame is made of a rectangular profile (80 x 60 mm) with rounded corners.

Certified quality

The fully welded training goal in the easytec version is manufactured according to the valid DIN standard 748 and thus also meets the requirements of FIFA and DFB (German Football Association). The soccer goal for training also has a **TÜV certificate** (TÜV - German Association for Technical Inspection).

Important note: The fully welded training goal -easytec- must absolutely be secured against tipping!

Not included in the scope of delivery are the rod system for goal net attachment to the ground frame and the soccer goal net itself.

Training goal directly from the manufacturer

Buy fully welded training goals directly from the manufacturer! At artec® Sportgeräte you get everything your soccer heart desires.
