

GROUND SOCKET OPTISOFT FOR CORNER FLAGS

SKU: 30110-OS

- With soft synthetic surface
- For corner flags Ø 50 mm
- Made of aluminum

PRODUCT DESCRIPTION

GROUND SOCKET OPTISOFT FOR CORNER FLAGS

The **ground socket optisoft for corner flags** has a round profile with an inner diameter of 54 mm and is made of aluminum. The socket top is provided with a **soft synthetic surface**, so that there are no disturbing ground socket edges. This **reduces the risk of injury** to a minimum. At the same time, the soft surface serves to protect the maintenance equipment and as a defined lawn mowing edge. The tube-in-tube design **avoids the need for a separate socket cover**. The precise cut-outs guarantee an optimal stand of the corner flag. To ensure easy cleaning, the internal core can be easily loosened and removed using a screw.

The ground socket optisoft is suitable for:

- [Corner flagpoles](#)

Intended Purpose	For Corner Flags
Model	Special ground socket optisoft
Material	Aluminum
Profile	Round profile 60 mm
