

GUTTER WITH LAWN EDGE, CURVED

SKU: 50002-An

- Price per metre
- Element length: 100 m
- Type 125 F
- Made of polymer concrete
- For sports grounds

PRODUCT DESCRIPTION

GUTTER WITH LAWN EDGE, CURVED, MADE OF POLYMER CONCRETE

The **gutter with lawn edge** in curved design is very robustly made of polymer concrete, extremely weather-resistant and **optimally suited for outdoor use** on sports grounds. The gutter has the following characteristics:

- **Temperature resistant** without deformation during asphalt installation up to 150°C.
- The construction elements comply with the requirements of DIN 18035 sports ground gutter / drainage
- Polymer concrete is highly corrosion-resistant, liquid-tight and resistant to a wide range of substances
- Installation is carried out in curved sections according to the manufacturer's installation instructions
- With **5 cm lawn upstand**

Note: The gutter is available in different lengths. We will also give you more information about [drainage for stadiums and sports grounds](#). In addition to various gutters and covers,

we also offer [inlet boxes](#) for sports field drainage.
