PRODUCT DESCRIPTION

HAMMER AND DISCUS THROWING CAGE, HEIGHT: 7 TO 10 M RISING

World Athletics certificateThe aluminum hammer and discus throwing cage has a height of 7 to 10 m rising and is mounted **in ground sockets** (not included). It is certified by World Athletics and therefore suitable for national and international competitions. The posts of the guardrail are made of high quality aluminum profiles with internal reinforcement (142 x 98 mm). The construction can be done without ladders (from below). In addition, the grille has the following features:

- Swivel flaps mounted on pivots can be adjusted according to the direction of throwing
- Trolley for pivoting flaps with lever device for lowering and lifting
- With extra wide rollers

The throwing cage is supplied **including 10 sandbags** made of waterproof PVC fabric. The **ball catching net, which is also included**, has the following features:
