

MOBILE BASKETBALL SYSTEM

SKU: 37545

- 1.65 m projection
- Mobile
- With counterweights
- TÜV tested

PRODUCT DESCRIPTION

MOBILE BASKETBALL SYSTEM FOR OUTDOOR USE

The **mobile basketball system** is made of high-quality aluminum profiles, has a projection of 1.65 m and is TÜV-tested. The base frame and the boom are each welded in one piece, which gives the facility **extraordinary stability**. The boom can also be folded down.

The basketball system includes a backboard made of weather-resistant coplast in the size 1.80 x 1.05 m. The basketball hoop is made of steel. The **steel basketball hoop** is galvanized and powder coated in orange color. The basketball net is also made of nylon with 6 mm material thickness.

Note: For the maximum of safety, the system must be equipped with the [suitable protective pads](#).

Mobile basketball system with transport roller

In order to achieve **high stability**, the mobile basketball system is equipped with a **weight**

box and counterweights. Furthermore, the basketball system is mobile due to extra wide polyamide double rollers. For transport, a receptacle for the lifting and transport roller is attached. The lifting and transport roller is also included in delivery.

Basketball systems directly from the manufacturer

In addition to fully equipped basketball systems, you can purchase basketball stands as well as the matching backboards, basketball hoops and basket nets individually. We are also happy to inform you about our different designs of outdoor basketball systems.
