PRODUCT DESCRIPTION

POLE VAULT CROSSBAR MADE OF PLASTIC (FIBERGLASS REINFORCED)

The plastic **pole vault crossbar** is reinforced with fiberglass and comes in a striking light yellow. The pole vault crossbar is 4.50 m long and has specific ends for a maximum friction resistance. The competition and training pole vault crossbar is **made in Germany** and is extremely robust and durable.

The pole vault crossbar is perfectly suited for our high-quality <u>pole vault stands made of</u> aluminum!
