## PRODUCT DESCRIPTION

## POLE VAULT CROSSBAR MADE OF POLYESTER

The pole vault crossbar is made of **5-fold matrix-reinforced polyester**, reinforced with glass fibres and comes in a striking dark yellow. The pole vault crossbar is 4.50 m long and has **specific ends** for a maximum frictional resistance. The competition and training pole vault crossbar is **made in Germany** and is extremely robust and durable.

The pole vault bar is perfectly suitable for our high-quality aluminum pole vault stands!
