

PROFESSIONAL TRAINING SOCCER GOAL, FULLY WELDED, WHITE

SKU: 30010-w

- 7.32 x 2.44 m
- Milled net suspension
- Rectangular profile in the ground frame
- Color: White

PRODUCT DESCRIPTION

PROFESSIONAL TRAINING GOAL - WHITE POWDER COATED

The fully welded **professional training goal** is powder coated white. It measures 7,32 x 2,44 m and has an extraordinary quality. In addition, the training goal is free-standing, which allows it to be used flexibly on the sports facility. However, it is mandatory to secure the professional training goal from tipping over (with e.g. ground nails/spirals). For this purpose, the goal already comes with a **device for ground anchoring**. The upper projection of the training goal is 0.80 m, the lower projection is 2.00 m.

The professional training goal in white color is **fully welded** and is equipped with welded corner connectors. This creates an extremely stable overall construction. The post as well as the goal bar are made of an oval aluminum profile 100 x 120 x 2.5 mm. In contrast, the ground frame is made of a rectangular profile 80 x 60 x 3 mm with rounded corners.

Premium mesh suspension

With the help of the high-quality **milled net suspension** (premium version), which is deburred on both sides, the soccer goal net can be mounted exactly and net-friendly in the aluminum profile of the goal frame. The safety of the athletes can also be ensured as there are **no sharp corners and edges** protruding from the profile. To secure the goal net to the ground frame, a rod system (not included) is still used. The required welded-on eyelets are already provided for this purpose.

The white professional training goal is manufactured according to the applicable safety rules as well as the valid DIN 748. Thus, the product complies with the specifications of FIFA and the DFB (German Football Association). It also has a **TÜV certificate** (TÜV - German Association for Technical Inspection).

Important note: The training goal (fully welded, white) must absolutely be secured against tipping over!

The pole system for attaching the soccer goal net to the ground frame and the net itself are not included.

Training goals and more directly from the manufacturer

At artec® Sportgeräte you get everything your soccer heart desires. As a manufacturer, we attach great importance to the durability and quality of our soccer goals and sports equipment. artec® offers you a variety of different goals: Whether professional training goals, soccer goals, youth soccer goals, recreational goals, or even mini goals.
