

SINGLE POLE STREETBALL SYSTEM MADE OF ALUMINUM

SKU: 38920

- 1.65 m projection
- Aluminum backboard
- With hercules net

PRODUCT DESCRIPTION

STABLE SINGLE POLE STREETBALL SYSTEM MADE OF ALUMINUM

The **single pole streetball system** made of aluminum is extremely robustly manufactured and is optimally suited for outdoor use. The basketball system consists of aluminum profiles with the dimensions 300 x 120 mm and a strong wall thickness of 8 mm. The projection is 1.65 m.

Quality from the manufacturer

The single pole streetball facility is equipped with a **weatherproof aluminum backboard**. The dimension of the backboard is 1.20 x 0.90 m. In addition, the facility comes with a hot-dip galvanized basketball hoop and a **cut and tear-resistant hercules net** in green.

Important note: According to DIN EN 1270, basketball stands with a projection of less than 2.25 m must be equipped with a [protective pad](#).

Streetball facilities and sports equipment from the manufacturer

In addition to extremely robust streetball facilities, we also have single pole basketball

facilities, double pole basketball facilities and basketball facilities for wall mounting in our program. Get also an overview of our different designs of outdoor basketball systems!
