

SINGLE POLE STREETBALL SYSTEM WITH BACKBOARD

SKU: 38911

- 1.65 m projection
- With backboard, hoop and net

PRODUCT DESCRIPTION

SINGLE POLE STREETBALL SYSTEM WITH BACKBOARD, HOOP AND NET

The single pole **streetball system** with backboard is made of steel profiles with a diameter of 140 mm. The wall thickness is 5 mm, the projection is 1.65 m.

Robust system from the manufacturer

The single pole streetball facility is equipped with a backboard, basketball hoop and chain net. The weatherproof backboard is made of mesh and has a surrounding frame in black color. The dimensions of the backboard are 1.80 x 1.05 m. The basketball hoop as well as the chain net are made of hot-dip galvanized steel.

Important note: According to DIN EN 1270, basketball stands with a projection of less than 2.25 m must be equipped with a [protective pad](#).

Streetball facilities and sports equipment from the manufacturer

In addition to extremely robust streetball facilities, we also have single pole basketball facilities, double pole basketball facilities and basketball facilities for wall mounting in our

program. Get an overview of the different designs of outdoor basketball systems from artec®!
