Barrier

- Barrier (firmly mounted in ground sockets) made of sandwich elements
- Very weatherproof and stable playing field barrier made of unbreakable sandwich elements
- Circumferential steel profiles for the holding construction
- Height of the board: approx. 1.00 m; element length: 2.50 m
- No stands or fixtures in the playing field area, thus minimizing the risk of injury
- Possibility to place barrier advertising of the sponsors
- Supporting structures and screw connections included
- Ground sockets for setting in concrete are included
- Ball catching posts made of special profiles

Recreational goals

- Recreational goals (2 pieces, dimensions: 3 x 2 m), profile: 80 x 80 mm, with side entrance and open rear construction
- Milled net suspension with deburring on both sides for safe and net-friendly net installation, reduced risk of injury
- Ground anchoring is done with composite anchors

Ball catching system

- High-quality and stable ball catching posts around the soccer court
- All-round ball stop net up to 3 m high (2 m above the playing field barrier), mesh size 100 mm, green

Individual equipment options

We offer mini playing fields for the highest demands **including assembly** (note: ground sockets must be installed in advance by the customer). On request, the stationary Soccer Court made of steel 40 x 20 m can be **combined with further additional equipment**:

- Playing field barrier with transparent barrier elements
- Possibility of barrier advertising for your sponsors

- Multifunctional posts for badminton, tennis, volleyball or fistball
- Fittings (noise reducing) and insulation panels possible
- Mini-goals in all common sizes
- Recreational goals in various designs (e.g. with basketball hoop or with closed back frame)
- Instead of ball stop nets also ball stop grids available
- Ball stop net also possible above the soccer court

Note: The ground coverings as well as all ground installation parts have to be provided by the customer!

Dimensions	15 x 10 m, 20 x 13 m, 30 x 15 m, 40 x 20 m
Model	Stationary
Type of Barrier	Sandwich elements
