## Barrier

- Stationary playing field barrier made of transparent elements, embedded in ground sockets
- Stable and weatherproof barrier made of unbreakable plastic elements
- Circumferential aluminum profiles for the holding construction
- Height of boards: approx. 1.00 m; length of elements: 2.50 m
- No stands or other fixtures in the playing field area, minimizing the risk of injury
- Barrier boards are ideally suited for sponsors' barrier advertising
- Retaining structures and screw connections made of aluminum / stainless steel are included
- Ground sockets for setting in concrete are included
- Ball catching posts made of special profiles are included

## Recreational goals

- Recreational goals (2 pieces, size 3 x 2 m) made of aluminum profile (80 x 80 mm), with side entrance and open back
- Deburred, milled net suspension on both sides for safe and net-protecting goal net installation
- Ground anchoring with composite anchors

## Ball catching system

- Permanently mounted ball catcher posts around the soccer court
- All-round ball stop net up to 3 m high (2 m above border) 100 mm mesh size, green

## Assembly included

We offer a soccer court for highest demands **including assembly** (note: ground sockets must be installed by the customer beforehand). On request, the mini playing field with glazed barrier can be combined with other **additional equipment**:

- Barrier made of Coplast elements, robust and stable
- Playing field barriers in mobile design

- Barrier advertising for your sponsors
- Multifunctional usable posts (volleyball, badminton, tennis and fistball)
- Fittings and insulation plates available for noise reduction
- Various soccer goals e.g. with closed back or also with basketball attachment
- Mini-goals in all common sizes
- Ball stop net stretched over the soccer court
- Ball stop net instead of a ball stop net

**Note:** The floor coverings as well as all floor installation parts are to be provided by the customer!
