SKU: 30017-GB

- 7.32 x 2.44 m
- Milled net suspension
- Weight in ground frame
- Fully welded
- Optionally with ARENA net protection

PRODUCT DESCRIPTION

MOBILE AND ANTI-TILT TRAINING GOAL

This **soccer training goal with counterweight** in the ground frame is fully welded and extremely **robust and durable** due to the thick-walled aluminum profiles used. The goal frame is made of oval profiles measuring 100 x 120 mm, while the ground frame is made of a square profile 80 x 80 mm. Due to the existing net hoops, the following projections result: 0.80 m at the top, 2.00 m at the bottom. The training goal comes in **natural aluminum color**.

Soccer training goal with counterweight in the ground frame

The **counterweight of the training goal is integrated in the ground frame**. In addition, the goal is equipped with foamed air wheels, which allow **very good maneuverability** on the field. The training goal can be moved widthwise. When tilted, it can also be easily moved over uneven surfaces (e.g. troughs).

The premium version of the training goal has a **milled-in net suspension**. The goal net can therefore be mounted directly in the goal post and crossbar profile. The suspension is deburred twice, which ensures an exact fit of the goal net and also a **net-protecting attachment**. The milled net suspension also offers the advantage that no corners and edges protrude from the goal frame profile and the safety of the athletes is guaranteed.

Training goal with TÜV certificate

The soccer training goal with counterweight meets all DFB (German Football Association) and FIFA requirements and is manufactured according to the valid DIN 748. It also has a **TÜV certificate** (TÜV - German Association for Technical Inspection).

The scope of delivery does not include the bar system for the safe goal net attachment to the ground frame as well as the goal net itself.

The anti-tilt soccer training goal can optionally be equipped with our **ARENA net protection**. The ARENA net protection is used to close the net groove precisely and to protect the goal net against theft. It is fixed in place with a screw lock.

Soccer training goals and more from the manufacturer

Buy soccer training goals with counterweight directly from the manufacturer! At artec® Sportgeräte you get everything your soccer heart desires. As a manufacturer, we attach great importance to the quality and durability of our goals and sports equipment. artec® also offers you a variety of different goals: Whether soccer training goals, soccer goals for competition, recreational goals, youth goals or even mini goals.
