PRODUCT DESCRIPTION

YOUTH GOAL IN NATURAL ALUMINUM COLOR

Buy stable aluminum youth goals directly from the manufacturer! The youth goal is 5 x 2 m and has the **color aluminum nature**. It is characterized by high quality and associated long life. This is achieved by the fact that the goal is completely **welded in one piece** and has welded corner connectors for additional stabilization. Both the goal and the ground frame are made of an oval aluminum profile with dimensions of 100 x 120 mm and a profile thickness of 2.5 mm.

Stable aluminum youth goal with device for anchoring to the ground

The youth goal is equipped with net hoops made of round tube, which results in the following projections: 0.80 m at the top and 1.50 m at the bottom. For good handling of the sturdy youth goal, **side carrying handles** are attached, which extend beyond the corner of the ground. Since the goal is a free-standing youth goal, it is mandatory to secure it

against tipping. For this purpose, the youth goal has a **device for anchoring to the ground**.

Note: Goal net not included.

High quality youth goal

The youth goal in natural aluminum color is manufactured in Germany according to DIN 748. The goal is also **TÜV certified** (TÜV - German Association for Technical Inspection).

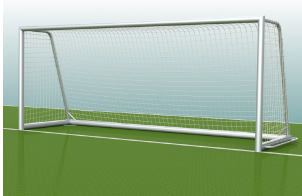

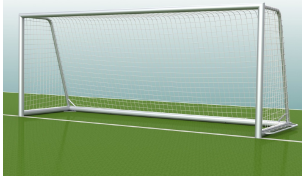

In the **premium version**, the youth goal has a **milled net suspension**. Due to the double deburring, the goal net has an optimal fit in the goal, so that it is firmly fixed in the goal frame profile even with high dynamic forces. For the attachment to the ground frame, a rod system (not included) is required. For this purpose, the youth goal is already equipped with welded eyelets.

Our high-quality youth goals with milled net suspension can additionally be equipped with the **ARENA net protection**. The ARENA net protection is used to close the milled net cutout precisely and to protect the goal net against theft. It is fixed in place with a screw lock.
