

ALUMINUM GOAL WALL WITH NET

SKU: 30153

- 3 x 2 m
- TÜV tested
- Made of aluminum
- With plastic net

PRODUCT DESCRIPTION

STATIONARY ALUMINUM GOAL WALL WITH PLASTIC NET

The **stationary goal wall made of aluminum** has a dimension of 3 x 2 m. The frame is made of square profiles (80 x 80 mm) of aluminum. Inside the goal wall frame, however, there is a plastic net (made of polypropylene) with a thickness of 4 mm. In the net there are two openings with a diameter of 50 cm.

The posts of the goal wall are extended so that the goal wall can either be mounted in ground sockets or concreted directly into the ground. Thus, the goal wall has a **high stability** and is secured against tipping. The goal wall is manufactured in Germany according to DIN 748, is **TÜV certified** and has a GS mark.
