

STATIONARY GOAL WALL FOR FLOOR ANCHORING

SKU: 30151

- 3 x 2 m
- TÜV tested
- Made of aluminum
- With multiplex panels

PRODUCT DESCRIPTION

STATIONARY GOAL WALL FOR ANCHORING TO THE GROUND

The stationary goal wall, which can be **firmly anchored to the ground**, has a **size of 3 x 2 m**. The frame is made of square profiles (80 x 80 mm) of aluminum. The goal wall itself is made of weatherproof multiplex panels, which makes it extremely **stable and durable**. In the wall there are also two openings with a diameter of 50 cm.

Stable goal wall from the manufacturer

The posts of the goal wall are extended, so that the goal wall can either be mounted in ground sockets or concreted directly into the ground. Thus it is firmly anchored and **tilt-proof**. The goal wall is manufactured in Germany in accordance with DIN 748, is **TÜV-tested** and has a GS mark.
