### PRODUCT DESCRIPTION

#### STATIONARY YOUTH GOAL IN NATURAL ALUMINUM

**High quality stationary youth goal** directly from the manufacturer! The **TÜV-tested goal** with net hoops has a size of 5 x 2 m and is **anchored in ground sockets** (not included). Thereby the posts of the goal are extended so that they can be embedded in the ground. The youth soccer goal comes with net hoops, which results in an upper projection of 0.80m. The lower projection can be 1.00 m and 1.50 m, depending on the combined ground frame (not included).

The goal frame of the stationary youth goal with net hoops is made of oval aluminum profiles measuring 100 x 120 x 2.5 mm. The net hoops are further made of round tube (30 x 3 mm). The construction of the youth soccer goal is **extremely stable**. This is achieved in particular through the use of high-quality materials and the **use of strong welds**.

**Note:** Goal net not included.

## Net suspension deburred on both sides

The **premium version** of the youth goal has a milled and deburred net suspension on both sides. The net can thus be fixed firmly and securely within the goal frame profile. The fact that no corners or edges protrude from the profile makes this an extremely **secure variant** of net suspension.

The stationary youth goal with net hoops can optionally be equipped with our **ARENA net protection**. The ARENA net protection is used to close the net groove precisely and to protect the goal net against theft. It is fixed in place with a screw lock.
