

STREETBALL SYSTEM MADE OF ROUND PROFILES

SKU: 38910

- 1.65 m projection
- With backboard, hoop and net

PRODUCT DESCRIPTION

ROBUST STREETBALL SYSTEM MADE OF ROUND PROFILES

The **streetball system** made of round profiles is a single pole facility made of steel profiles with a diameter of 140 mm. The wall thickness is 5 mm, the **projection is 1.65 m**.

With backboard, basketball hoop and net

The streetball system made of round profiles is equipped with a **weather-resistant backboard** made of mesh, which has a circumferential frame in the color black. The dimensions of the backboard are 1.20 x 0.90 m. In addition, the unit comes with a **hot-dip galvanized basketball hoop** and a chain net that is also hot-dip galvanized.

Important note: According to DIN EN 1270, basketball stands with a projection of less than 2.25 m must be equipped with a protective pad.

Streetball systems and sports equipment from the manufacturer

In addition to streetball systems for public places, we also have single pole streetball facilities, double pole streetball systems and basketball systems for wall mounting in our

program. Get an overview of the different designs of outdoor basketball systems from artec®!
