PRODUCT DESCRIPTION

STURDY ALUMINUM YOUTH GOAL WITH NET HOOKS

Buy stable youth goals directly from the manufacturer! The youth goal -easytec- is **5 x 2 m large** and comes in the color aluminum nature. It is characterized by an extremely high quality and associated **long durability**. This is achieved by the fact that the goal is fully welded and equipped with welded corner connectors for additional stabilization. Both the goal and the ground frame are made of an oval profile with dimensions of 100 x 120 mm.

Freestanding and sturdy aluminum youth goal

The youth goal has net hoops, which are made of round tube (60 x 3,5 mm). This results in the following projections: 0.80 m at the top and 1.50 m at the bottom. For good handling, the sturdy youth goal is equipped with side-mounted carrying handles. These extend beyond the corner of the ground. Since the youth goal is a **free-standing model**, it is essential to secure it against tipping. For this purpose, the goal has a device for ground anchoring (e.g. for ground spirals/nails).

Certified goal with net hooks

The youth goal -easytec- in the color natural aluminum is manufactured in Germany according to DIN 748. The goal is also **TÜV certified** (TÜV - German Association for Technical Inspection).

In the easytec version, the youth goal has extremely flat **safety net hooks** made of plastic. With the help of these hooks, the goal net can be quickly and easily attached to the goal frame profile. For the goal **net mounting on the ground frame**, a rod system (not included) is required. For this purpose, the youth goal is already equipped with welded eyelets.
