PRODUCT DESCRIPTION

SAND-FILLED RECREATIONAL GOAL, ALUMINUM

The **aluminum sand-filled recreational goal** is made of thick-walled profiles (100 x 120 mm), fully welded and reinforced several times. As a result, a very high stability is achieved. In addition, the aluminum struts of the closed back frame are equipped with a sand filling, which provides **very good noise reduction** at the impact of the ball.

Premium class recreational goal

The aluminum recreational goal is **fully welded** and reinforced several times. This goal is manufactured in the **highest quality** exclusively in Germany and offers **exceptional stability and durability** due to its robust construction. The closed back wall with robust and high-quality aluminum profiles guarantees extreme durability and offers very good noise reduction due to the sand filling. In addition, the goal wall offers enormous fun.

TÜV-tested (TÜV - German Association for Technical Inspection), this goal complies with
