PRODUCT DESCRIPTION

FULLY WELDED TEAM AND COACHES CABIN MUNICH

The **team and coaches cabin** is made of thick-walled aluminum profiles and reinforced several times. This creates an exceptionally **stable and durable premium class team cabin**. The upper area of the rear wall as well as the side walls also consist of macrolon glazing for optimal visibility. The roof is curved backwards so that rain can run off. In addition, the coaches bench has carrying handles welded on both sides for **comfortable transport** and welded lugs (5 pieces) for ground anchoring. For a reliable fastening, we recommend our matching **ground anchor sockets (set of 5)**.

Modern and robust coaches bench

The team and coaches cabin is available in **3 m, 4 m, 5 m, 6 m and 8 m** length. Other sizes are available **on request**. All versions have a height of 2.25 m and a depth of 1 m. The cabin is delivered in one piece, so that **no major assembly effort** is required. On the part of artec® we recommend anchoring to the ground.

The coaches benches from artec® Sportgeräte will definitely not leave you sitting in the rain! Protected from wind and weather, you can watch the game in the team cabin made of aluminum. Our cabins are manufactured in Germany **in the highest quality** and are therefore in use on many sports fields. Please also inform yourself about technical details of our coaches benches!

High quality sports equipment directly from the manufacturer

At artec® you get everything for the soccer field from one source: In addition to the team and coaches cabin MUNICH you get goals in different designs (e.g. soccer goals in the size 7.32 x 2.44 m, youth soccer goals or recreational goals), goal nets and other soccer accessories.
