- Back wall and upper side walls made of macrolon glazing
- With carrying handles

PRODUCT DESCRIPTION

TEAM CABIN ESSEN MADE OF ALUMINUM

The **team cabin ESSEN** is made of thick-walled aluminum profiles and reinforced several times. This results in an exceptionally **stable and durable team cabin**. The back wall is completely made of macrolon glazing, while the side walls are equipped with macrolon in the upper part. The roof is inclined to the rear so that rain can run off. In addition, the cabin has carrying handles welded on both sides for **comfortable transport** and welded lugs (4 pieces) for floor anchoring. For a reliable fastening, we recommend our matching **ground anchor sockets** (set of 4).

Team and coaches cabin in different sizes

The team cabin is available as standard in **3 m, 4 m and 5 m** length. Further lengths are available **on request.** All versions have a height of 2.25 m and a depth of 1 m. The cabin is delivered in one piece, so that **no major assembly effort** is required. On the part of artec®

we recommend anchoring to the ground for a firm stand.

The team cabins from artec® are guaranteed not to leave you sitting in the rain! Protected from wind and weather, you can watch the game in the team cabin "Essen". Our cabins are manufactured in Germany in the **highest quality** and are therefore in use on many sports fields. Please also inform yourself about technical details of our top quality team cabins!

Sports equipment directly from the manufacturer

At artec® you get everything for the soccer field from one source: Besides the team cabin ESSEN you get goals in different designs (e.g. soccer goals in size 7,32 x 2,44 m, training goals or youth soccer goals), goal nets and further soccer accessories.
