PRODUCT DESCRIPTION

FULLY WELDED TEAM CABIN WITH VIEWING SLOTS

The **team cabin with viewing slots** is made of thick-walled aluminum profiles and reinforced several times. This results in an exceptionally **stable and durable premium class team cabin**. There are viewing slots in the middle area of the side walls to achieve good viewing conditions. The roof is inclined to the rear so that rain can drain off optimally. In addition, the cabin has welded-on carrying handles on both sides for **comfortable transport** and welded-on lugs (5 pieces) for floor anchoring. For a reliable fastening, we recommend our matching **ground anchor sockets (set of 5)**.

Team and coaches cabin in different sizes

The team and coaches cabin is available as standard in **3 m, 4 m and 5 m** length. Further lengths are available **on request.** All versions have a height of 2.25 m and a depth of 1 m. The cabin is delivered in one piece, so that **no major assembly effort is required**. On the

part of artec® we recommend the additional anchoring to the ground.

The artec® team cabins are guaranteed not to leave you sitting in the rain! Protected from wind and weather, you can follow the game in the team cabin with viewing slots. Our coaches cabins are manufactured in Germany to the **highest quality** and are therefore in use at many venues. Please also inform yourself about technical product details of our top quality team cabins!

Sports ground equipment directly from the manufacturer

At artec® you get everything for the soccer field from one source: In addition to the team cabin with viewing slots, you get goals in different designs (e.g. large field goals in the size 7.32 x 2.44 m, training goals or youth soccer goals), goal nets and other soccer equipment.
