

TRAINING SOCCER GOAL, GERMAN MILITARY STANDARD

SKU: 30015

- 7.32 x 2.44 m
- Strong aluminum profile
- Fully welded
- Milled net suspension

PRODUCT DESCRIPTION

ROBUST TRAINING GOAL IN GERMAN MILITARY STANDARD

The **training goal in German military standard** has a size of 7.32 x 2.44 m, is fully welded and has a device for ground anchoring. Due to the net hoops the following projections result: The upper projection is 0.80 m, the lower projection is 2.00 m.

The German military version of the training goal has an extremely strong aluminum profile in the ground frame. The oval profile measures 100 x 120 mm and has a **wall thickness of 4 to 6 mm**. The goal post and bar profile is also an oval profile made of aluminum, but with a smaller wall thickness of 2.5 mm - as with the other versions of the training goal.

High-quality net suspension

The training goal in German military standard can be supplied with the high-quality **milled net suspension**. This is deburred twice and ensures a secure hold of the goal net. The safety of the athletes can also be guaranteed, as no corners and edges stick out due to the mounting within the aluminum profile. The goal net is attached to the ground frame via

a rod system and firmly welded eyelets. The rod system is not included in the delivery.

The training goal is of course manufactured according to the current DIN standard and meets all safety regulations. As proof, the goal therefore has the **TÜV certificate** (TÜV - German Association for Technical Inspection).

Important note: Mobile goals must be secured against tipping over!

Goal net and rod system for net fixing are not included.
