SKU: 30017-E

- 7.32 x 2.44 m
- With anti-tilt device
- Safety net hooks
- Color: natural aluminum

PRODUCT DESCRIPTION

TRAINING GOAL - DURABLE AND STABLE

This **training goal with anti-tilt device** allows easy transport on the training field and ensures safety for players and coaches! The net suspension -easytec- includes extremely flat designed net hooks, which can be mounted quickly and easily in the aluminum profile of the stable training goal. This is the more cost-effective alternative for customers in contrast to the milled-in net suspension. A firm hold of the goal net as well as a low risk of injury can still be guaranteed due to the excellent design.

The **stable training goal with anti-tilt device** is welded in one piece and has welded-in corner connectors. This results in a very **robust overall construction**. The goal is equipped with net hoops made of round tube (60 x 3.5 mm). The upper projection is 0.80 m, the lower projection is 2.00 m. The goal bar as well as the posts are made of an oval aluminum profile with the dimensions of 100 x 120 mm. The bottom frame is made of a rectangular profile (80 x 60 mm) and has **rounded corners**.

Training goal with anti-tilt device

The anti-tilt device, which is screwed to the training goal, is made of an aluminum profile with a **steel filling**. In addition, there are **foamed air wheels**, which allow flexible use of the training goal. In the tilted position, the goal can be moved widthwise on the sports ground.

The stable training goal is manufactured according to the valid DIN standard 748 and thus corresponds to the safety requirements of the DFB (German Football Association) and FIFA. Furthermore, the stable training goal is certified by **TÜV** (TÜV - German Association for Technical Inspection).

The soccer goal net and the rod system for fixing the goal net to the ground frame are not included.

Robust quality from the manufacturer

Buy training goal with anti-tilt device directly from the manufacturer! At artec® Sportgeräte you get everything your soccer heart desires. As a sports equipment manufacturer, we attach great importance to the durability and quality of our products. artec® offers you a variety of different goals: Whether soccer training goals, large field goals for competition, youth goals, recreational goals, or even mini soccer goals.
