

TRAINING SOCCER GOAL WITH WHEELS AND WEIGHT, TYPE PROTECTOR -EASYTEC-

SKU: 30017-1E

- Weights included
- TÜV certified
- Projection 2.00 m
- Safety net hooks

PRODUCT DESCRIPTION

MOBILE TRAINING GOAL

The **training goal with wheels and weights** has **safety net hooks** in the easytec version. As these are constructed extremely flat, they are very safe. They can also be quickly and easily attached to the goal frame profile. The goal net is mounted to the ground frame using a rod system (not included). The eyelets required for this are already welded to the training goal.

The mobile training goal is equipped with wheels and weights. It has a dimension of 7.32 x 2.44 m and is equipped with net hoops. The upper projection is 0,80 m, the lower projection is 1.50 m. The training goal is **made of aluminum**. While the goal post as well as the goal bar are made of an oval profile (100 x 120 mm), the ground frame is made of a rectangular profile (80 x 60 x 3 mm). The edges are rounded for the safety of the athletes.

Training goal with wheels and weight

The **anti-tilt device** includes both wheels and weights, which are firmly attached to the ground frame of the training goal. The counterweight consists of an aluminum profile with an integrated steel core. The foam-filled pneumatic wheels, which are also mounted, ensure **very good traversability** and flexible use. The training gate is movable according to the width.

The training goal with wheels and weights -easytec- has a **TÜV certificate** (TÜV – German Association for Technical Inspection). It is manufactured according to the valid DIN standard 748 and thus also complies with the rules of FIFA and DFB (German Football Association).

The following items are not included in the scope of delivery: Soccer goal net, pole system for net attachment to the ground frame.
