

TRAINING GOAL WITH WHEELS AND WEIGHTS

SKU: 30017

- 7.32 x 2.44 m
- With anti-tilt device
- Milled net suspension
- Color: natural aluminum
- Optionally with ARENA net protection

PRODUCT DESCRIPTION

TRAINING GOAL WITH WHEELS AND WEIGHTS - STABLE AND DURABLE

This **stable training goal with wheels and weights** of the PROTECTOR type is **welded in one piece** and has welded-in corner connectors. This results in an extremely robust overall construction. The training goal comes with net hoops made of round tube (60 x 3.5 mm). The upper projection is therefore 0.80 m, the lower projection is 2.00 m.

The goal bar as well as the posts are made of an oval aluminum profile measuring 100 x 120 x 2.5 mm. The ground frame, on the other hand, is made of a rectangular profile (80 x 60 x 3 mm) and has **rounded corners** for the safety of the athletes.

Robust anti-tilt system

The anti-tilt system is made of an aluminum profile with integrated **steel core filling**. Additionally attached are **foamed air wheels**, which allow a flexible use of this training

goal with wheels and weights. When tilted, the goal can be moved widthwise.

The **net suspension** for the stable training goal is milled into the goal frame profile. It is also deburred twice, which means that the goal net can be attached to the training goal extremely gently and firmly at the same time. The safety of the athletes is also ensured by the fact that no corners or edges protrude from the profile.

Certified by TÜV

The training goal with wheels and weights is manufactured according to the valid DIN standard 748 and thus **meets the safety requirements** of the DFB (German Football Association) and FIFA. The sturdy training goal is also certified by TÜV (TÜV - German Association for Technical Inspection).

The goal net and the pole system for fixing the goal net to the ground frame are not included.

The anti-tilt soccer training goal can optionally be equipped with our **ARENA net protection**. The ARENA net protection is used to close the net groove precisely and to protect the goal net against theft. It is fixed in place with a screw lock.

Training goal directly from the manufacturer

Buy high quality training goals with wheels and weights directly from the manufacturer! At artec® Sportgeräte you get everything your soccer heart desires.
