

YOUTH GOAL, FULLY WELDED, MADE OF ALUMINUM -EASYTEC-

SKU: 30065-E

- 5 x 2 m
- Color: natural aluminum
- Projection 1.50 m
- Safety net hooks

PRODUCT DESCRIPTION

YOUTH GOAL WITH SAFETY NET HOOKS

The **fully welded youth goal** has a dimension of 5 x 2 m and is made of aluminum. In the easytec version it includes **plastic hooks for net fastening**. The youth goal has high stability and **long durability** for several reasons: The oval profile (100 x 120 mm) used for the goal frame has a high profile thickness, making it very robust. In addition, the youth goal is **fully welded** and has welds of the highest quality. The corner connectors, which are also welded in, provide additional stability to the overall construction.

Note: Goal net not included.

Youth goal made of aluminum

The ground frame is made of a rectangular profile (80 x 60 x 3 mm). The corners of the profile are rounded to reduce the risk of injury to athletes. The **aluminum goal** is further equipped with net hoops made of round tube profiles (60 x 3.5 mm). This results in the following projections: 0.80 m at the top and 1.50 m at the bottom. It is essential to secure

the free-standing and fully welded youth goal against tipping. Therefore, the goal comes with a **device for anchoring to the ground**.

Flat designed net hooks

The goal is equipped with the **easytec net suspension system**. The extremely flat designed safety net hooks are made of plastic. Due to the excellent design, they protrude only slightly from the goal frame profile. This means that there is no risk of injury. The safety net hooks can also be mounted quickly and easily in the aluminum profile. Eyelets are welded to the ground frame of the goal to attach the goal net. In addition, the **rod system for securing the net** to the ground frame is required (not included).

The fully welded goal -easytec- is manufactured in Germany and is of the highest quality. The goal is also manufactured according to the valid DIN standard 748 and is **certified by TÜV** (TÜV - German Association for Technical Inspection). This ensures that our customers get a safe youth goal.

Aluminium youth goals and sports equipment from artec®

With us, you are guaranteed to find the perfect goal: Whether youth goals made of aluminum, competition goals in 7.32 x 2.44 m size, training goals, recreational goals or even mini goals in various dimensions - there is something for everyone! As a sports equipment manufacturer, we attach great importance to high quality and durability in our products. Just choose the suitable soccer goal in our online store and let us inspire you! You are also welcome to find out more about the technical details of our goals for youth soccer.
