

YOUTH GOAL, FULLY WELDED, MADE OF ALUMINUM

SKU: 30065

- 5 x 2 m
- Color: natural aluminum
- Projection 1.50 m
- Milled net suspension
- Optionally with ARENA net protection

PRODUCT DESCRIPTION

YOUTH GOAL MADE OF ALUMINUM, FULLY WELDED

The youth goal has a **size of 5 x 2 m** and is made of high quality aluminum. The goal has exceptional **stability and quality** for various reasons: The oval profile (100 x 120 mm) used for the goal frame has a wall thickness of 2.5 mm, making it very robust. In addition, the goal is **fully welded**. The welding seams used for this purpose are of the highest quality. The additionally welded corner connectors also provide stability.

Note: Goal net not included.

Youth goal with 1.50 m projection

The ground frame of the fully welded goal consists of a rectangular profile made of aluminum with the dimensions 80 x 60 x 3 mm. To minimize the risk of injury, the corners of the profile are rounded. Furthermore, the **aluminum youth goal** has net hoops. This

results in an upper extension of 0.80 m and a lower extension of 1.50 m. As there is a risk of tipping with free-standing goals, it is imperative that the goal is secured. For this purpose, the goal is equipped with a **device for anchoring to the ground**.

Firm hold of the goal net

The aluminum youth goal has the **premium net suspension**. This double deburred net attachment is used for a particularly precise and net-friendly installation of the soccer ball goal net. The suspension points are located inside the goal frame profile. For fastening to the ground frame, a net securing device with rod system is required (not included in delivery). For this purpose, the youth goal is equipped with **welded eyelets**.

The fully welded goal is of the highest quality and is manufactured in Germany. The production is in accordance with the valid DIN 748. The goal is also **certified by TÜV** (TÜV - German Association for Technical Inspection). Therefore, the safety of our youth goals can be guaranteed.

Our youth goals with milled net suspension can additionally be equipped with the **ARENA net protection**. The ARENA net protection is used to close the milled net hole precisely and to protect the goal net against theft. The net is secured with a screw lock.

Aluminum youth goals and sports equipment from artec®

With us, you are guaranteed to find the right goal: Whether youth goals in 5 x 2 m size, competition goals, training goals, recreational goals or even mini goals in various dimensions - there is something for everyone! As a sports equipment manufacturer, we attach great importance to the high quality and durability of our products. Just choose the suitable soccer goal in our online store and let us inspire you! You are also welcome to find out more about the technical details of our goals for youth soccer.
