

YOUTH GOAL WITH WEIGHT IN THE GROUND FRAME -EASYTEC-

SKU: 30074-E-GB

- Type PROTECTOR
- 5 x 2 m
- Safety net hooks
- Fully welded
- Color: natural aluminum

PRODUCT DESCRIPTION

YOUTH GOAL WITH WEIGHT IN THE GROUND FRAME

The **youth goal with weight in the ground frame -easytec-** is made of aluminum and has a size of 5 x 2 m. The goal frame is made of oval profiles (100 x 120 mm), while the ground frame is made of square profiles (80 x 80 mm). The youth goal is completely **welded in one piece** and has welded corner connectors. In combination with the strong welds, you get a youth goal of **extremely high quality**. The goal with integrated counterweight also comes with net hoops made of round tubing, resulting in the following projections: 0.80 m at the top and 1.50 m at the bottom.

The youth goal with weight in the ground frame -easytec- meets the requirements of FIFA as well as DFB (German Football Association). It is manufactured according to the valid DIN 748 and is **TÜV tested** (TÜV - German Association for Technical Inspection).

Note: Goal net not included.

Net suspension with net hooks

The plastic **safety net hooks** used in the easytec net suspension system have an extremely flat design. As a result, they protrude only slightly from the goal frame profile. This guarantees the safety of the athletes. Net installation is **quick and easy** with the help of the net hooks. The goal net is still attached to the ground frame with the help of a tensioning rope or alternatively with the help of a rod system (not included). For this purpose, the youth goal with counterweight is equipped with welded eyelets.

Integrated anti-tilt device in the ground frame

The youth goal is **secured against tipping over** by a counterweight integrated in the ground frame. To ensure that the goal can be moved around the sports facility despite the additional weight, it also has **two special wheels** (foamed-in-place pneumatic wheels with a diameter of 250 mm). These wheels have optimal running characteristics. The youth goal is movable according to the width.

Buy secure goals directly from the manufacturer

Buy the youth goal with weight in the ground frame directly from the manufacturer! With us, you are guaranteed to find the perfect soccer goal for your purpose: whether youth goals (optionally with bolted anti-tilt device or weight in the ground frame), competition goals in the size 7.32 x 2.44 m, training soccer goals, recreational goals or even mini goals - there is something for everyone!
