PRODUCT DESCRIPTION

YOUTH SOCCER GOAL - QUALITY FROM THE MANUFACTURER

The **youth soccer goal 5 x 2 m** made of aluminum has **extraordinary stability** for various reasons: The oval aluminum profile used for the goal frame, with dimensions of 100 x 120 mm, has a profile thickness of 2.5 mm, making it very robust. In addition, the youth soccer goal 5 x 2 m is **welded in one piece**. The welds are of the highest quality. Welded corner connectors also provide additional stability.

Robust youth soccer goal 5 x 2 m made of aluminum

The ground frame consists of a rectangular aluminum profile with the dimensions 80 x 60 x 3 mm. This has rounded corners to keep the risk of injury as low as possible. Furthermore, the youth soccer goal 5 x 2 m **made of aluminum** has net hoops made of round tube (60 x 3.5 mm), resulting in an upper projection of 0.80 m and a lower **projection of 1.00 m**. It is mandatory that the youth soccer goal is secured against tipping.

For this purpose, the goal is equipped with a **device for anchoring to the ground**.

Exact hold of the goal net

The aluminum youth goal is equipped with the **premium net suspension**. For a particularly precise and net-friendly installation of the goal net, it is deburred on both sides and has no sharp edges. The suspension points for the net are located directly in the post and bar profile, so that nothing protrudes from the profile. To attach the soccer goal net to the ground frame, a **net securing device with rod system** is required (not included). For this purpose, the goal already comes with welded eyelets. The goal net must also be purchased separately.

The youth soccer goal 5 x 2 m made of aluminum is of the highest quality and is manufactured in Germany according to the valid DIN 748. The goal is **certified by TÜV** (TÜV - German Association for Technical Inspection). Thus, the customer can be sure that a safe youth soccer goal is on the sports field.

Note: Goal net not included.

Our youth goals with milled net suspension can additionally be equipped with the **ARENA net protection**. The ARENA net protection is used to close the milled net cutout precisely and to protect the goal net against theft. It is fixed in place with a screw lock.

High quality youth goals from artec®
